

Bello Tajul-Adab Ayomiposi

08061972676 | iamtjbest15@gmail.com | Zaria, Nigeria

Professional Summary

Highly motivated and versatile tech professional with a unique blend of expertise in UI/UX design, full-stack web and mobile development, AI automation, and cloud infrastructure. Aspiring DevOps Engineer with a proven ability to design intuitive digital products, build responsive websites, and streamline workflows using modern automation tools. Adept at bridging the gap between user-centric front-end design and scalable back-end cloud environments, with hands-on experience taking complex projects from conceptualization to full deployment across web and mobile platforms.

Core Strengths

- **UI/UX Design & Prototyping:** Advanced
- **Leadership & Project Management:** Intermediate
- **Web & Mobile App Development:** Intermediate
- **Front-End & Back-End Fundamentals:** Intermediate
- **Workflow & AI Automation:** Advanced
- **Cloud Infrastructure (GCP):** Intermediate

Relevant Experience & Projects

Founder & Lead Developer | *Tactica (Web & Mobile Application)* | May 2025 – Present *Live*
Link: tactica.com.ng

- Architecting and developing an AI-driven web application and its companion mobile app from the ground up, overseeing the entire product lifecycle.
- Applying foundational front-end and back-end development skills to build, integrate, and deploy the mobile application independently.
- Designing intuitive, user-centric interfaces and complex layouts using industry-standard design tools.
- Managing domain registration, cloud hosting environments, and application architecture to support scalable growth.

Project Lead & AI Automation Developer | *Mama Tees Kitchen (Collaborative Project)* | 2026
Live Link: <https://mama-tees-kitchen.lovable.app/>

- Directed a cross-functional development team through the complete lifecycle of a web application prototype, overseeing project strategy and team coordination.
- Spearheaded the integration of conversational AI by designing and automating an intelligent voice and chat agent to handle real-time user interactions.

Lead Developer & Designer | *MHGlobal Careers (Website Project)* | 2026 Live Link: <https://www.mhglobalcareers.online>

- Designed, built, and deployed a fully functional and responsive website from scratch, ensuring optimal performance and seamless user experience across all devices.
- Managed the end-to-end development lifecycle, integrating strong UI/UX principles with robust web architecture.

UI/UX Designer | *Aegis Safety (Academic Project)* | 2026 Live Link: <https://aegissafety.vercel.app/>

- Led the user interface and experience design for a safety-focused academic web application, ensuring clean navigation and accessibility.
- Developed wireframes, prototypes, and final layouts, aligning the visual identity with the project's core functionality and user needs.

Cloud Computing Intern | *CoLab* | June 2026 – Present

- Gaining practical, hands-on experience configuring and managing cloud environments, establishing a strong foundation in DevOps methodologies.
- Utilizing cloud platforms to optimize infrastructure, focusing on deployment efficiency and system reliability.

Technical Toolkit

- **Platforms:** Google Cloud Console, Web Deployment Frameworks
- **Digital Tools:** Figma, CorelDraw, N8N, Make
- **Specialized Skills:** Full-Stack Web Development, Mobile App Development, UI/UX Interface Design, Visual Branding, AI Workflow Automation, Cloud Computing, Continuous Integration/Deployment (CI/CD) concepts.

Education & Certifications

- **Bachelor of Engineering (B.Eng)** | *Ahmadu Bello University, Zaria* | 2022 – Expected 2027
- **Certification in AI Automation** | *TS Academy*
